ADVANCED AEROMEDICAL SEMINAR  
2016

# Advanced Aeromedical Seminar®

Clinical Care in the Air

**CCAT**  
AEROMEDICAL TRAINING

## Prep 3 course for the Diploma in Retrieval and Transfer Medicine

The objective of the Advanced Aeromedical Seminar is to update and push forward existing knowledge in retrieval and transport medicine. Delegates should have previous experience in aeromedical operations and be interested in debate and discussion of current hot topics. Clinical and logistic simulations are included in the program.

This is the **PREP 3** course for those interested in sitting the Diploma in Retrieval and Transport Medicine (Royal College of Surgeons, Edinburgh) and other similar qualifications. It complements the **PREP 1** (foundation level) and **PREP 2** (helicopter medical flight crew) courses.

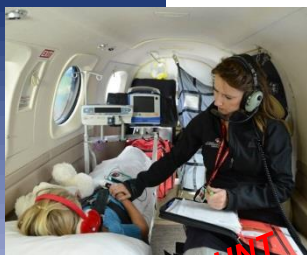

### Programmed activities:

- **Day 1 –**
  1. Management of clinical emergencies in flight
  2. Scenario/simulation training, leadership & teamwork
- **Day 2 –**
  1. Transport of patients in commercial airliners
  2. Dilemmas in medical assistance, travel insurance and case handling
- **Day 3 –**
  1. Flight Medical Crew Study Day: Complex clinical cases; Advanced aviation physiology; Logistics and Med Ops dilemmas; Putting the mission together
  2. Medicolegal conundrums; Crew competencies and standards; Quality control; Mission management
